

SPATIAL LIGHT MODULATOR USING AN INTEGRATED CIRCUIT  
ACTUATOR AND METHOD OF MAKING AND USING SAME

ABSTRACT OF THE DISCLOSURE

A spatial light modulator (SLM) includes an integrated circuit actuator that can be fabricated using photolithography or other similar techniques. The actuator includes actuator elements, which can be made from piezoelectric materials. An electrode array is coupled to opposite walls of each of the actuator elements is an electrode array. Each array of electrodes can have one or more electrode sections. The array of reflective devices forms the SLM.
